DETAILED ACTION

Examiner's Amendment

In view of the Examiner's restriction requirement and subsequent election dated 04/26/2003 without traverse, claims 10-11 have been withdrawn from consideration, and they are now canceled by this Examiner's amendment.

Reasons for Allowance

1. Claims 1-8 and 12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests a liquid crystal display (LCD) in which the contact slits extends through a part of the gate insulating layer between one of the gate layers and adjacent one of the plural drain layers, another part of the gate insulating layer between said adjacent one of said plural drain layers and adjacent one of said plural storage electrode layers and yet another part of the gate insulating layer between one end portion of said part of the gate insulating layer and one end portion of another part of said gate insulating layer opposed to said one end portion of said part as set forth in claim 9 and/or a protective dielectric layer extends from a top portion of the drain layer through the gate insulating layer between the gate layer and the drain layer to contact the substrate and extends from the top portion of the drain layer through the gate insulating layer between the drain layer and the storage electrode layer to contact the substrate as set forth in claim 12..

The most relevant reference, Applicant's admitted prior art (APA), figure 1-3, fails to disclose or suggest a contact slits and a protective layer as claimed. The APA reference only

Art Unit: 2871

discloses an LCD having an array of pixels with a plurality of thin film transistors and storage electrode layers with contact slits as shown in the applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
